SUBJECT: Information regarding Spas in the Republic of Srpska

1. SLATINA SPA - INSTITUTE FOR PHYSICAL MEDICINE AND REHABILITATION DR MIROSLAV ZOTOVIC

INSTITUTE FOR PHYSICAL MEDICINE AND REHABILITATION DR MIROSLAV ZOTOVIC

Institute capacity comprises 500 hospital beds at locations in Trapisti and Slatina, diagnostic and therapy departments with modern equipment, as well as operating rooms with modern equipment. Today, the Institute also includes a spa complex in Slatina and a CBR center located in the center of the city of Banja Luka

SLATINA SPA – SPA PROPERTIES

Slatina Spa, operating within the Department of Rheumatology, has developed into a modern spa. Expert team of Slatina Spa comprises: specialists of physical medicine and rehabilitation,
physical therapists, medical technicians and a psychologist. Physical therapy is conducted by means of (individual and group) kinesitherapy, thermotherapy, phototherapy, laser therapy, electromagnetic therapy, ultra sound therapy and manual massage.

Healing factors:

By its physical and chemical properties, the spa water in Slatina is mineral (2.700 mg/l) Ca, Mg, hydrocarbonate, sulphate, carbonic acid, hyper-thermal (T - 40 -42 C), with ph value of 7.4 (alkaline). The expert team, aided by modern medical technology and natural benefits of the healing water, is specialized for the following:

- rehabilitation of patients with inflammatory extra-articular, metabolic and degenerative rheumatism
- rehabilitation of posttraumatic conditions
- rehabilitation of patients following surgical procedures on the locomotor system – implantation of artificial hip or knee joints,
- rehabilitation of patients following discus hernia surgery
- rehabilitation of patients with sports injuries

ACCOMMODATION
Accommodation capacities in several buildings are available to the guests visiting Slatina Spa for vacation or treatment and rehabilitation. The refurbished hotel has 1 suite, 8 double rooms, 9 triple rooms and 4 quad rooms, while the new hotel offers accommodation in 3 double suites, 3 single rooms and 27 double rooms. Pavilions are located in the southern part of the park and include 3 double suites, 29 double rooms, 2 triple rooms and 1 quad room. Accommodation capacity of a pavilion in the southwest shady part of the park comprises 16 double rooms.

Vrucica Spa complex comprises 4 hotels with about 1000 beds. The guests are offered many facilities and services, which makes Vrucica Spa a famous natural spa, conference, sports and recreation, and tourism and manifestation center. In addition to the accommodation, hotels: Kardial, Posavina, Serbia, and Special Hospital with Herzegovina Hotel, surrounded by abundant greenery, forests and developed parks, offer the guests also prevention, treatment and rehabilitation following cardiovascular, physiatric and rheumatic, and neurological diseases.

SPA PROPERTIES

Natural healing properties of thermomineral spa water have favorable effects in the rehabilitation of cardiovascular, rheumatic and neurologic diseases, which is why the Health and Tourism Center Vrucica Spa became a famous spa with trained staff and necessary equipment. The prevailing activity of the Health and Tourism Center Vrucica Spa is medical rehabilitation, conducted at the Special Hospital for
Cardiovascular Disease Rehabilitation. Rehabilitation and treatment are conducted on patients following myocardial infarction, balloon dilatation or stent placement, by-pass surgery, heart valve surgery, blood vessels surgery (a. carotis, aorta, extremity blood vessels). The spa offers rehabilitation and treatment of rheumatic, neurological and posttraumatic diseases and conditions.

ACCOMMODATION

Hotels: Cardial, Posavina, Serbia, and Special Hospital with Herzegovina Hotel offer the visitors accommodation in about 1000 beds.

PRICE

Hotel Cardial - with 337 beds distributed in 196 luxuriously equipped single and double rooms and suites.

Kulasi Spa is located on the road Prnjavor - Teslic, at the fourteenth kilometer. It occupies the foot of the mountain Ljubic in the valley of the river Ukrina. A hundred year long tradition of Kulasi is based on the sources of particularly healing thermomineral water, whose temperature is 27 degrees C. It is totally bacteriologically sterile, and its particular features are high alkalinity (Ph 11.75) and low mineralization (168 mg/l). There are only three sources of such water in Europe, and seven in the world.

**SPA PROPERTIES**

Analysis of the thermomineral spa water proved that its use yields exceptionally good results in treatment of the following: renal and urinary tract diseases (kidney stone and bladder stone, chronic kidney infections, conditions following surgical procedures on kidney and urinary system), digestive tract diseases (gastritis, peptic ulcer and duodenal ulcer), female reproductive system diseases, high blood pressure and cholesterol level, diabetes, consequences of bodily injuries, locomotor system diseases (rheumatism), skin diseases (eczema, psoriasis).

**ACCOMMODATION**
Hotel accommodation of Kulasi Spa comprises 50 rooms and four suites. Every room has a terrace with a view of the Ukrina river valley and is equipped with a television set with satellite channels, and a telephone. The hotel includes: restaurant, café with pastry shop, aperitif bar, TV room, library, parking space, relaxation rooms, pools with thermomineral healing water, massage therapies, gardens and flower gardens, sport fields (futsal, basketball, volleyball etc.).
